## **DETAILED ACTION**

### ***Election/Restrictions***

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
  - I. Claims 1-5, 13, 14 and 21 are drawn to a method of manufacturing a wiring board, classified in class 29, subclass 830+.
  - II. Claims 6-12 and 15-20 are drawn to a wiring board, classified in class 174, subclass 174/260.

The inventions are distinct, each from the other because of the following reasons:

2. Inventions group I and II are related as process of making and product made.

The inventions are distinct if either or both of the following can be shown: (1) that the process as claimed can be used to make other and materially different product or (2) that the product as claimed can be made by another and materially different process (MPEP § 806.05(f)). In the instant case the product as claimed can be made by another and materially different process. A plating is a specific process step. The product can be made by other known method in the art such as chemical vapor deposition, instead of plating process. Also, instead of forming a resist film with opening, a resist film fully covering the surface can be formed and can be partially removed wherever the opening is required.

Art Unit: 2841

3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, and the search required for Group II is not required for Group I, restriction for examination purposes as indicated is proper.

4. A telephone call was made to Bryant E. Wade (Reg. 40,344) on October 18, 2005 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Ishwar (I. B.) Patel whose telephone number is (571) 272 1933. The examiner can normally be reached on M-F (8:30 - 5:00).
